OPEN TO YOU NOW

THE GREATEST OPPORTUNITY YOU

HAVE EVER HAD

our earning capacity—to get away from the monotony, grind and low wages of just 'a job, here is your hance. Think it over it your future bright, or are you in a rut where promotion is a matter of years?

Ours is the largest corporation of its kind in the world today. We are expanding streadily. We need new men who have the ambition, the determination to take hold of an inusual opportunity and "twist its rail". Those who were accepted last fall are more than ever consinced that it was indeed, the opportunity of a life-time. Here is a letter from one of them—and we have duents like it—to our sales manager. It speaks for itself.

Dear Sig.

On September 19th I answered an advertisement from this corporation. "Salesmen, or men who could become salesmen, it read. I knew I was no salesman and had my doubts about anybody being able to make one out of me. I was an engineer. With an engineer's mental attitude. But I was sold solidly on the value of the opportunity, the integrity and ability of their men who offered it, and the fundamental importance of the work heing done. I was accepted, given a short, intensive training and then sent out into the field. The first week I made \$140 for myself. Shortly I was carning over \$200 a week and over a nerod of several months I averaged approximately \$250 sweek. In other words, this corporation had taken a man with no selling training or experience and developed in a short time a man who was selling consistently. And within three montes time I was promoted to District Sales Manager. It sounds rather sudden but that's the way they do things here once a man has demonstrated his ability.

What this organization has one for me is not for sale at my price.

And now we are not only after new men to start with us as salesmen —we are going to TEACH them to sell, free of charge! In a few days we are opening our new training course, with this one idea in mind—to fit the right men into our cranitation quickly, whatever their wast experience. The following subnorties have been secured as instructors and lecturers:

HARRY COLLINS SPILLE MAN Educational Director of the Remington Typewriter Com-pany, Author of Personality in Seiling."

PROFESSON CHARLES W GERSTENBERG—Head of the Department of Finance. New York University, Professor of constitutional Law and Bank-ruptcy. St. Lawrence Univer-sity, Brooklyn Law School, Chairman of Board of Directors of Prentice-Hall, Inc.

OR FRANK CRANE - World-famous author, editor and pub-liciat.

ARTHUR FREDERICK SHEL-DON-Founder of the Sheldon school of Salesmanship, Presi-dent of the International Bus-ness Science Society, Author of "Science of Business," Former-iv General Sales Manager of the Encyclodedia Brittanics for Entire United States.

SYDNEY PETERSON—For-merly Sales Manager Metropol-tan District, of the Sheldon School of Salesmanahip.

Men who have never soid and men with years of experience behind them will benefit from this training. Each of our instructors is a nationally known authority in his field, and the work is so arranged as to give every man sound, up-to-theminute preparation in the briefest possible time.

At the conclusion of the course you are placed in the Sales Department, where you should average over \$100 a week. Then follows promotion to the Commercial Department, where the men who have made good in selling are advanced to permanent executive positions in our subsidiary companies.

Disturally, we cannot accept every applicant. We want only men who are seriously bent on making their enrollment in this course the firstep to a permanent business future with us Intelligence, persistence and personality count far more with us than past experience.

If this unique opportunity interests you, write us briefly about yourself, and we will arrange a personal interview. As the number of men who we can enroil for this remarkable course is definitely limited, we suggest that you do not delay. Address COURSE DIRECTOR, M 282 Ledger Office.

.

Sincerely, W. H. W.
